I Bennefit from listening to XM's traffic and weather channels when I am traveling. Sattalite radio provideds the best quality and information which is not available anywhere else. I pay for these services and feel that the NAB should not be allowed to dictate what I as a consumer listen to. I hearby respectfully urge the FCC to reject the NAB's petition 04-160. I support XM and believe they provide services needed and desired. Thank you for letting me have a voice in the overall opinion.
